

Electrical Requirements

Each school is responsible for making sure the electrical work is installed by a qualified electrician before we arrive on site to set up the pool.

3 Phase 63 amp 5 pin IP64 socket is required with a rotary isolator housing an internal 40amp 4 Pole RCCD with 30ma RCD protection.

40amp 3 pole MCB at distribution board.

Also a lockable IP-RATED 240volt socket mounted adjacent

(see pictures above).
